- Choice of outershell fabrics: durable nylon or flame retarded Proban®
- Quick release buckles on waist and leg straps
- 50mm webbing waist belt

CHAINSAW PROTECTIVE CLOTHING

Elliott Australia's chainsaw protective trousers and chaps are designed for the professional chainsaw operator to prevent or minimise injuries to the legs caused by chainsaws.

Elliott Australia's chainsaw clothing is available in trousers and several styles of chaps. They are manufactured to meet the design requirements of AS/NZS 4453.3:1997 and NZS 5840:1998 and the performance requirements of NZS 5840:1998.

Elliott Australia chainsaw protective clothing uses special warp-knit materials that are designed to jam a chain saw's moving chain. This material is fully washable, lightweight and very comfortable.

REMEMBER

- Read and follow all instructions for your chainsaw carefully.
- Additional protective equipment should also be worn when using a chainsaw.
- Use only the correct size, the garment must cover the full length of the wearer's leg.
- Use only correctly fitted garments.
- All closures must be fastened and straps tightened to ensure minimum slack. Repair damaged closures before use.

CLEANING, MAINTENANCE AND REPAIRS

- Repairs may only be carried out on the outer layer, do not repair or sew through the protective pad.
- Repair damaged outer layer immediately to prevent damage to protective pad. If the internal protective pad has been damaged DO NOT USE and discard immediately.
- Visually inspect at regular intervals when in storage, before and after each use. If damaged, discard and replace. If in doubt DO NOT USE.
- Wash chaps regularly as instructed on care/ washing label. Heavy soiling may reduce protection. Failure to comply with care/ washing instructions will reduce effectiveness.

IMPORTANCE

Chainsaw protective clothing is designed to reduce the severity of harm to the wearer in event of a mishap during chainsaw operation, however the best form of accident prevention is proper training and exercise of caution on the job.

WARNING

These garments do not offer protection against all risks. The level of protection this garment provides will be reduced by failure to comply with manufacturers instructions.

Elliott chainsaw protective clothing is available in the following styles:
