INTRINSICALLY SAFE

YOUR SAFETY IS OUR BUSINESS!

This range of safety LED lights is perfect for mining, petrochemical, agricultural and manufacturing industries.

Energizer Intrinsically Safe LED professional torches are designed and constructed to provide superior performance and to meet the highest safety standards even in the most hazardous work environment.

Capitalizing on LED technology, this range of torches provides maximum visibility, rugged durability, long run time and most importantly, safety in hazardous environment.

No compromising on quality. No compromising on safety.

- IECEx Intrinsically safe Class 1, Group 1, Division 1 certified
- IEC 60529 waterproof and dustproof standards
- Ingress Protection rating IP67
- Certified for UL913: Class I - Group A, B, C; Class II - Group E, F & G; Class III
- Chemical resistant, anti-static polypropylene construction

Safety is assured as all Energizer lighting products under the Intrinsically Safe series have the following intrinsic safety approval:
ATEX: European Union • UL & CUL North America • MSHA: USA mine use • IECEx: Australia, New Zealand, South Africa and Asia.
